**Product Name:** FAB CLEAN **Product Code:** B145

**Manufacturer:** Prochem Europe Ltd., Oakcroft Road, Chessington, Surrey KT9 1RH, UK. Telephone No: 020 8974 1515 (UK) +44 20 8974 1515 (EC) Chemical Product Manager E, H & S

**Emergency Action:** In the event of a medical enquiry involving this product, please contact your doctor or local hospital accident and emergency department, who may seek advice from the **UK National Poisons Information Service**, where our full product details are held.

**Product Description & Directions For Use:**

A delicate blend of biodegradable surfactants, optical brighteners and deodorisers, formulated for general use in hot water extraction cleaning of upholstery fabrics. Fab Clean has a mild pH of 8.5 and subject to pre-testing, is safe for use on most wet cleanable colourfast fabrics.

Thoroughly dry vacuum fabric before wet cleaning procedures.

Dilute 15ml of B145 per litre of warm to hot water (1 to 65) in the machine solution tank. Always pretest fabric in an inconspicuous area with ready-to-use solution, for colour fastness and possible colour or texture change before proceeding.

If colours bleed or colour change occurs, test with B109 Fibre & Fabric Rinse and use accordingly. If texture change occurs or fabric is sensitive to water, dry clean only.

Precondition heavily soiled areas with B108 Fabric Restorer or B148 Fabric Prespray, according to label directions. Extraction clean using a fine jet upholstery tool, with even over-lapping strokes. Lightly spray clean fabric with B109 Fibre & Fabric Rinse or A101 Neutra-Soft solution, then finish with clean white towel.
