Eye Contact: Contact with concentrate may cause moderate eye irritation.

Skin Contact: Prolonged or repeated contact with concentrate may cause irritation and/or possible dermatitis.

Inhalation: Exposure to fine spray mists may cause respiratory irritation and breathing difficulty.

Ingestion: Ingestion of concentrate may produce nausea, gastric irritation and systemic effects.

Environment: Contains less than 1% anionic surfactant which is classified as toxic to aquatic organisms, may cause long term adverse effects in the aquatic environment. Raw materials are biodegradable. See Ecological Information for further details.

SECTION 4: FIRST AID MEASURES

Eye Contact: Flush immediately with water for 10 minutes, then seek medical attention if irritation persists.

Skin Contact: Flush skin with plenty of water. Seek medical attention if any skin irritation persists.

Inhalation: Get fresh air and seek medical assistance if breathing is difficult or recovery is slow.

Ingestion: Drink water and seek immediate medical attention. Do not give anything by mouth if patient is unconscious. DO NOT INDUCE VOMITING.

SECTION 5: FIRE FIGHTING MEASURES

Extinguishing Media: Product is not flammable. Use water, carbon dioxide, dry powder extinguisher, or other media appropriate for materials actually involved in fire.

Fire/Explosion Hazards: No explosion hazard.
